what is it?

BYTOM IDENTITY NETWORK

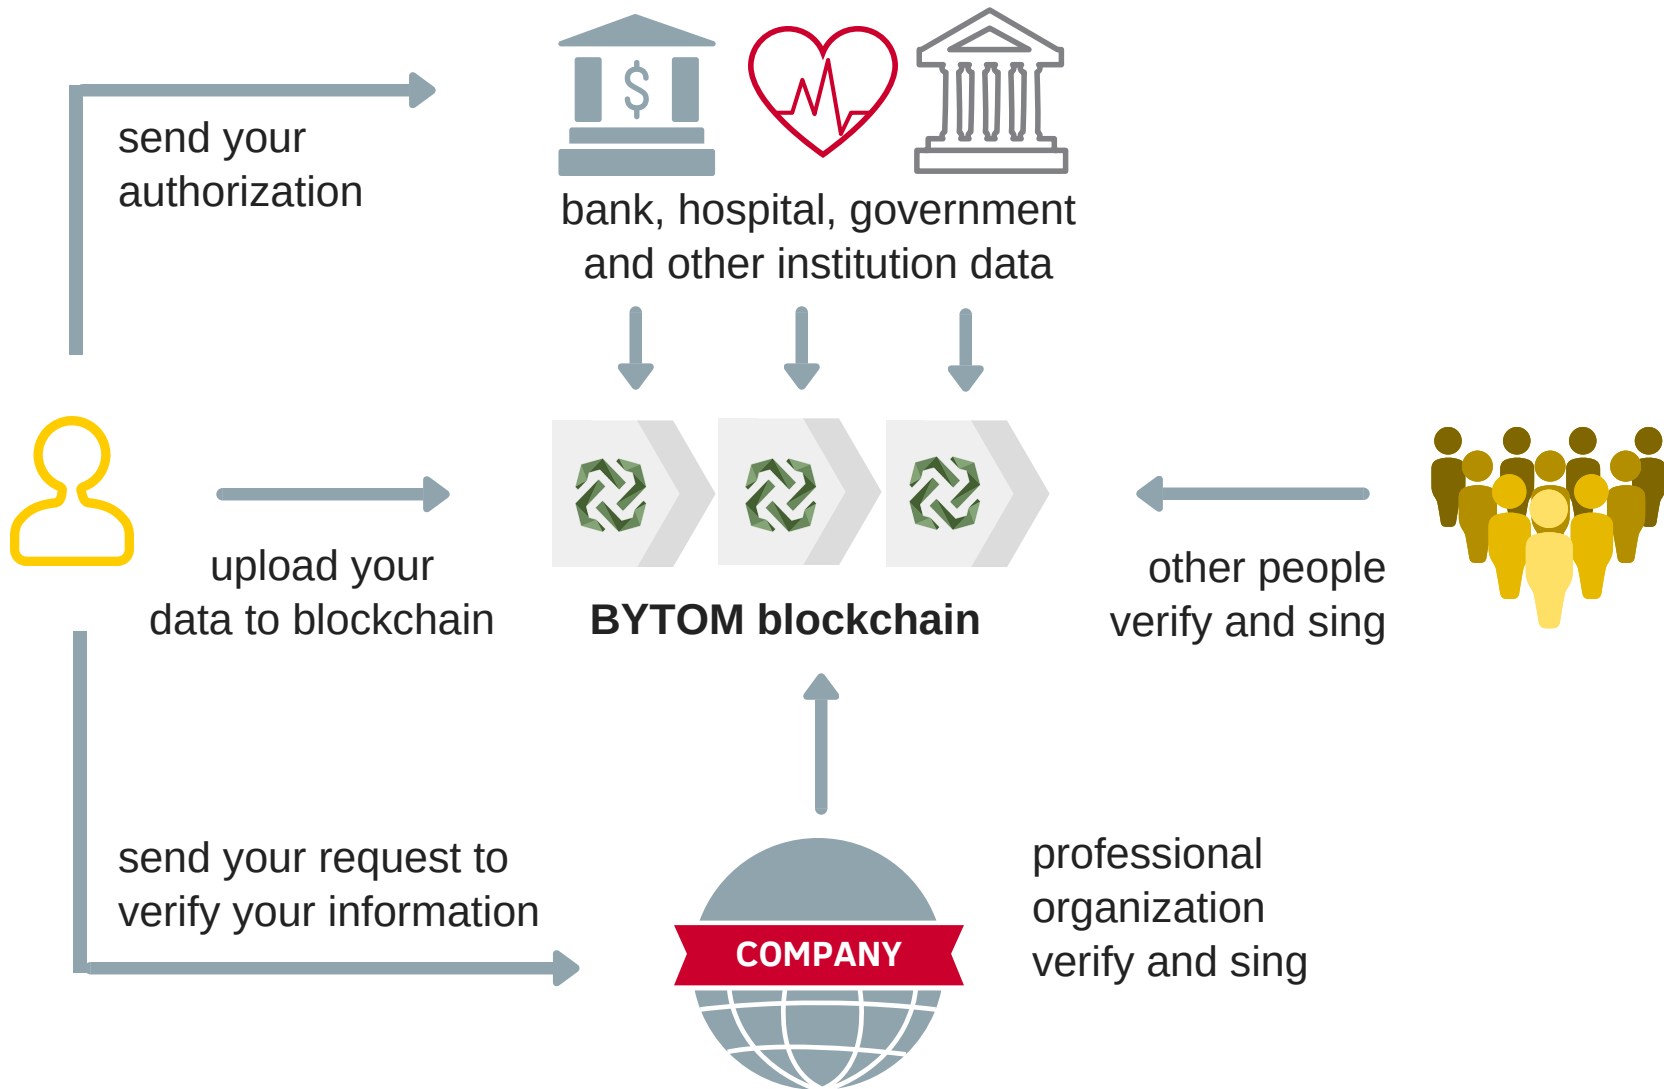

We make the world safer and more convenient by optimizing the processes of interaction between citizens and business, municipal and financial institutions.

mission

BYTOM IDENTITY NETWORK

ecosystem

BYTOM IDENTITY NETWORK

The DNA code

The personal key is created at the birth of the child and stores the DNA code.

<<code>>

User's keys

Keys are generated by a third-party wallet, providing a firewall between BYTOM and users' keys.

Data biometrics

Identity data is fully encrypted in the App on the user's device and can be accessed with biometrics.

Public identifier

Public identifier for the authenticating authority, hashed identity data, and a flag indicating the data is still valid.

technology

BYTOM IDENTITY NETWORK

WE HELP YOU MONITOR YOUR HEALTH

Your profile is created at birth. DNA Code -
Additional Protection for Your Personal Data.
Your medical history is stored in a profile. This
helps doctors to obtain complete and important
data in a short time and in situations when the
patient is unconscious, or does not speak
a foreign language.
